

Diana Alfonso

Senior PHP / Drupal Developer

Montevideo, Uruguay | dlap980319@gmail.com | +598 99864280 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior PHP / Drupal Developer with 7+ years of experience architecting and delivering scalable, high-traffic government platforms (GovTech). Deep expertise in Drupal 9/10/11, custom module development, RESTful API integrations, Symfony components, and Composer-based workflows. Proven track record leading large-scale CMS migrations, designing robust backend architectures, and enforcing WCAG web accessibility standards. Adept at working in Agile/Scrum environments within cross-functional teams of 8–15 members. Leverages AI tools such as Gemini, Claude, and GitHub Copilot to enhance productivity, debugging, and code quality.

CORE SKILLS

- Backend Development (PHP 8, Drupal, Symfony, Laravel)
- Custom Module & Theme Development
- API Development & Integrations (REST, JSON:API, Guzzle)
- Authentication, SSO & Security Best Practices
- Drupal Migrations & Version Upgrades (D7/D9/D10/D11)
- Performance Optimization, Caching & Scalability
- Web Accessibility (WCAG 2.1) & UX Best Practices
- Agile Methodologies (Scrum, Kanban)
- Technical Documentation, Code Review & Estimation
- Headless Drupal & Decoupled Architectures
- Python & NLP (Pandas, NLTK) – Data Processing & ML

TECHNICAL STACK

Languages: PHP 8, JavaScript (ES6+), Python, SQL
Frameworks: Drupal 9/10/11, Symfony Components, Laravel
CMS: Drupal (custom modules, themes, migrations)
Frontend: Twig, SCSS, Bootstrap
APIs: REST, JSON:API, Guzzle, OAuth2
Databases: MySQL, MariaDB, PostgreSQL
Search: Apache Solr, Search API
Testing: PHPUnit, Drupal Kernel & Functional Testing
Tools: Docker, DDEV, Git, Composer, Linux, CI/CD, Drush
AI Tools: Gemini, Claude, GitHub Copilot

SOFT SKILLS

- Technical Leadership & Mentoring – guided junior developers through complex migrations and best practices
- Cross-functional Collaboration – experienced working alongside designers, PMs, and government stakeholders
- Problem Solving – strong analytical approach to diagnosing performance bottlenecks and migration conflicts
- Clear Communication – able to translate technical concepts for non-technical audiences and document solutions effectively
- Adaptability – comfortable switching between long-term maintenance work and fast-paced delivery cycles
- Attention to Detail – consistent focus on code quality, accessibility standards, and security compliance

PROFESSIONAL EXPERIENCE

Senior Drupal Developer

ISA LTDA – Intendencia de Montevideo | Montevideo, Uruguay | Oct 2024 – Present

Projects: *Montevideo Government Portal* & *Internal Intranets*

- Architect and maintain multiple high-traffic Drupal 10 government portals, including the official website of Montevideo's municipality
- Engineer custom Drupal modules using PHP 8 and Symfony components to support complex business workflows and third-party integrations
- Enforce WCAG 2.1 accessibility compliance across all platforms through systematic auditing and targeted remediation
- Architect and implement enterprise search using Apache Solr integrated with Drupal Search API for enhanced content discovery
- Collaborate within cross-functional teams of 8–15 members including designers, PMs, and government stakeholders to deliver secure, maintainable solutions
- Standardize development workflows using Docker and DDEV containerized environments

Senior Drupal Developer

ISA LTDA – Intendencia de Maldonado & Intendencia de Canelones | Uruguay | 2024

Projects: *Government Portal Migrations* ([Maldonado](#) & [Canelones](#))

- Led full-scale Drupal migrations using Drupal Migrate API:
 - Maldonado: Drupal 9 to Drupal 10
 - Canelones: Drupal 7 to Drupal 10
- Migrated complex content structures including nodes, media, taxonomies, paragraphs, and user data with full integrity validation
- Diagnosed and resolved data inconsistencies, schema conflicts, and broken references across legacy codebases
- Optimized migration batch processes for performance, reliability, and rollback safety
- Mentored junior developers on Drupal best practices, Composer workflows, and version control standards

Senior Drupal Developer

ISA LTDA – AGESIC (Uruguayan Government Digital Agency) | Uruguay | Sep 2021 – Jan 2024

Projects: *National Government Platform* (67+ Portals & 13 Intranets)

- Maintained and enhanced 67+ institutional Drupal portals and 13 internal platforms serving multiple Uruguayan government agencies
- Contributed backend development to the official website of Uruguay (gub.uy), one of the country's highest-traffic public platforms
- Engineered reusable custom Drupal modules and backend solutions within teams of 8–15 members, adopted across the entire government portal network
- Optimized database queries, caching strategies, and backend logic to significantly improve platform performance and scalability
- Deployed and maintained enterprise search infrastructure using Apache Solr and Drupal Search API
- Enforced WCAG 2.1 web accessibility standards and security best practices across all managed platforms

Drupal Developer

DigitalProjex | Uruguay | 2021 – 2022

Project: *Corporate Website Development*

- Developed a custom Drupal 9 website from scratch
- Built a custom theme using Twig, SCSS, and Bootstrap
- Configured local development environments using Docker and DDEV
- Collaborated in defining site architecture and content structure

Drupal Developer

UTE (National Power Company – Uruguay) | Uruguay | 2021

Project: *SCER Data Visualization Platform*

- Developed a platform for real-time data visualization using REST APIs
- Implemented secure authentication mechanisms for API consumption
- Optimized backend logic to ensure high performance and data freshness
- Designed dynamic interfaces for efficient data presentation

R&D; Developer (Python / NLP)

University of Matanzas | Cuba | 2018 – 2021

Project: *Document Classification System*

- Developed machine learning models for automated document classification using NLP techniques (Python, Pandas, NLTK)
- Built end-to-end data processing pipelines for text analysis, metadata extraction, and classification accuracy improvement

EDUCATION

Bachelor's Degree in Computer Engineering

University of Matanzas, Cuba | 2016 – 2021

CERTIFICATIONS

- Acquia Certified Developer – Drupal 11 (2025)
- Acquia Certified Site Builder – Drupal 10 (2024)
- Drupal Backend Specialist – Forcontu (2022)
- AI Development Fundamentals – BIG School (2026)

LANGUAGES

- Spanish – Native
- English – Professional (C2)
